

# Freedom 15

Modern efficient pleasure canoe

Like its sisterships, the Freedom 15 features an asymmetrical hull with a fine bow and slightly fuller stern. The mid section has mild tumblehome for comfortable solo paddling and good structural rigidity. A small canoe has an easier time turning corners and needs some design features to aid with straight-line tracking. To this end, the Freedom 15 has less rocker and deeper aft sections for effortless steering. The 35" beam gives it a stability factor of 104 which means it will give confidence to those on board, and yet be a pleasure to paddle. We see it on lakes, rivers, and portages being used for camping, day trips, fishing and just playing around.

## Specifications

- Length 15'
- Maximum beam 33.25"
- Beam waterline 33.4"
- Beam gunnel 34.3"
- Bow height 19.25"
- Centre depth 13.1"
- Draft 4.46"
- Displacement 400 lbs.
- Wetted surface 28.0 sq.ft.
- Weight to immerse 133 lb/in
- Prismatic coefficient 0.566
- Weight 45 to 50 lbs.
- Keel-less or shoe keel
- Stability factor 104
